

1. Match times, scoring, additional rifle restrictions, and course of fire are the responsibility of each match director.
2. Cancelations, disqualifications, rainouts, and final standings for the individual matches are the responsibility of the match director.
3. Only scores obtained after you register will count towards your WPR points.
4. Match scores will be submitted by match directors to WPR or extracted from Practiscore. Scores will be recorded as provided by the match director or as they appear in Practiscore; shooters are strongly encouraged to confirm their scores with the MD before leaving the match to ensure accurate scores are entered into WPR standings.
5. The WPR competitors' season score will consist of their top three (3) scores.
6. All competitors will begin the season "unclassified". The competitors' first two (2) scores of the season will be used to classify each competitor. These classifications will carry over to each new season (new shooters will need to classify with two matches). The class tiers are as follows:
 - **"A" Class** – Scores greater than 80% of match-winner.
 - **"B" Class** – Scores greater than 55% but less than or equal to 80% of match-winner, two consecutive match results exceeding 80% will result in competitor moving to "A" class.
 - **"C" Class** – Scores less than or equal to 55% of match-winner, two consecutive match results exceeding 55% will result in competitor moving to "B" class.

You can "class up" but you cannot "class down". This means that if you initially classify as a "B" shooter based on your first two (2) scores and continue to improve throughout the year, resulting in two (2) consecutive match scores over 80%, you are now permanently an "A" shooter. Certain circumstances may allow a shooter to "class down" and will be handled on a case-by-case basis.

7. WPR points will be obtained from the individual match scores. The top shooter for each match will receive 100 points, each shooter will receive WPR points as a percentage of the match winners' points.

Example

- Match winner gets 69 out of 81 possible points – **Receives 100 WPR points.**
 - The next highest shooter gets 67 points – 67 is 97.101% of 69 **which equals 97.101 WPR points.**
 - 13th place shooter gets 41 points – 41 is 59.420% of 69 **which equals 59.420 WPR points.**
8. Tiebreakers. Ties for placement that occur at an individual match will be decided by the match director. In the event, two or more shooters tie for first place at an individual match, both shooters will receive 100 WPR points. Ties for places less than first will receive the same WPR points per the scoring formula. If, at the end of the season, there is a tie, the tie-breaker will be determined by hit percentage (hits vs total hits possible). This overall percentage will be taken from the shooter's top three (3) matches and will be averaged. The best percentage determines the winner, next best for second, and so on.
 9. Competitors are required to follow the rules of each individual match. Any intentional deviation from these rules to improve one's standings or altering scorecards to reflect a score other than what a competitor received according to match rules may be cause to forfeit WPR points for that match or the season, to be determined by WPR, following review.
